

EXHIBIT C
APPLICANT CONSENT/AGREEMENT TO
DEFERRAL OF DETERMINATION OF ACTUAL “COSTS”

Applicant: [same as on application submitted to Board/District]

1. I/we understand that in submitting this application to the Steamboat Lake Water and Sanitation District, the Colorado Statutes require that I/we deposit an amount of money sufficient to pay all “costs” of having my/our application processed and acted upon by the District.

2. Given the uncertainties of what the “costs” will actually be, and the willingness of the District to attempt to maximize efficiencies by consideration of more than one application at a hearing, and the further willingness of the District to track its “costs” during the application process, I/we hereby request and consent to the following:

a. I/we agree to pay those costs incurred by the District which are attributable to my/our application, and further understand and agree that the District may withhold final action/approval of my/our application until such costs are paid in full.

b. I/we agree and understand that the District will keep a record of the actual costs that are incurred related to my/our application and that such information will be provide to me/us in a final accounting and billing.

c. I/we agree that the District may, in its discretion advertise and schedule the hearing on my/our application with the application of others, may advertise such applications together, and may include multiple properties in the District’s final decision or order.
